

LIBRA - 2021 S

Name: Libra

About: VA Sponsors: Morgan Patek & Eric Nyman 1.21 . Libra was taken away by Sanidad with all her 10 puppies. Sadly, one puppy was dead but the other nine were alive. The people were selling them, with a sign on their house saying: Puppies For Sale! The dogs were in a real mess, figuratively and literally, they were never let outside. The puppies are grown now and most have been adopted. Mum Libra is still with us in the kennels, but in a much happier state than before. She is neutered now and will never have to be a puppy producing machine again. It would be so nice for her to find a real home.

Is available for adoption: Yes
